

NATIONAL SEMINAR
ON
INDIAN KNOWLEDGE SYSTEM
(To Achieve the Goal of Viksit Bharat 2047)
8TH & 9TH APRIL 2026
Organized by
IQAC

PARMARTH INSTITUTE OF TEACHER'S EDUCATION
Shivsagar Station Road, Bamhour, Sasaram, Rohtas, Bihar-821111
(Affiliated by Veer Kunwar Singh University, Ara, Bihar)

BACKGROUND

The Indian knowledge system is a term used to refer to the intellectual, philosophical and spiritual traditions of India which have a long and rich history dating back to ancient times. The National Education Policy (NEP) 2020 integrates the Indian Knowledge System (IKS) by incorporating India's rich traditions of philosophy, science, technology, arts, and culture into the curriculum across all educational levels. IKS encompasses knowledge from ancient texts to indigenous practices and serves to provide a holistic approach, fostering moral values, critical thinking and a understanding of contemporary societal challenges through the fusion of traditional wisdom and modern knowledge. The policy also promotes the development of IKS centers, research and resources to disseminate indigenous knowledge and prepare future generations as knowledge leaders.

AIMS AND OBJECTIVES

The main aims and objectives of integrating Indian Knowledge Systems (IKS) into education and research are to rejuvenate and main stream ancient wisdom, address contemporary global challenges, foster holistic education, preserve cultural heritage and promote interdisciplinary research. This involves incorporating diverse aspects of Indian knowledge including mathematics, philosophy, medicine and governance, in to curricula and research projects to create a more sustainable and intellectually rich society.

ABOUT ROHTAS

The local legend also connects king Sahastrabahu with Sasaram, the headquarter of Rohtas district. It is believed that Sahastrabahu had terrible fight with saint Parsuram. The term Sahasram is supposed to have been derived from sahastrabahu and Parsuram. Another legend connects the Rohtas hill to Rohitashwa S/O Raja Harishchandra, a famous king who was known for his piety and truthfulness. The district of Rohtas formed a part of the Magadh Empire since 6th B.C. to 5th Century A.D. under the pre Mauryans. The minor rock edict of Emperor Ashok at Chandan sahid near Sasaram confirmed the Mauryans Conquest of this district.

The Rohtasgarh fort, located on the Kaimur Hills, was a strategic location and served as a seat of governance and Sher shah Suri. Sasaram, the administrative headquarters of Rohtas district, is also the birth place of the Afghan King Sher shah Suri. The tomb of Shershah Suri is at Sasaram. Tara Chandi Temple, Tutala Bhawani water fall, Majhar kund and Durgawati dam also situated in Rohtas which are famous tourist place.

The district had a very uneventful history till we come to 1857 when Veer Kunwar Singh revolted against the British Empire in line with the Mutineers of 1857. Sassaram has been an important place from the historical and archaeological point of view since ancient times.

GEOGRAPHICAL POSITION

The Geographical Position of the district Rohtas

Latitude- 24 ° 30' - 25 ° 20'

Longitude - 83 ° 14' - 83 ° 88'

Height above the seal level is 107 Meter.

OUR GOAL PURPOSE ARE:-

- To relate ancient education to the modern education .
- To depict the innovative ideas related to educational policies.
- To acquire knowledge and ideas.
